MISSION PHOENIX – UPDATE 3

12/01/23

Finances – Fundraising & Expenses

Our **Fundraising campaign** started in July 2022 using a **video** produced by **Andi Scheibenreif** on **Gofundme** platform. Since then it has been spreading on social media around the globe. A **music fundraising festival named "Bom Dia Rising"** with international participation in Inhambane was organized as well as **small events** promoting our cause. Counting on worldwide support we are sure to achieve our goal for 2023: **re-mounting a state-of-the-art music studio in Inhambane**, our home and jewel on the Indian Ocean.

Rebuilding Studio Bom Dia in Mozambique

DI Roland Pickl is organising this fundraiser.

Finances – Fundraising & Expenses

Summing up all activities we managed to raise the impressive amount of **47.700 Euros**.

Out of this amount **22.200 Euros** were used with main categories of expenses being:

removal of the damaged construction, purchase of new building material, transport, labour, new music equipment for production and live events, repair of damaged equipment.

Donations are channeled through the studio website: www.studiobomdia.com

There you can find our Gofundme campaign as well as bank accounts in Austria, South Africa and Mozambique, PayPal and Mpesa.

Small Local Events

Thank you : **Davie Levack** for special hand-made beer benefiting the studio. English saxophonist **Karen Boswall** for a charity concert in England. The **German Embassy, CCMA** (Centro Cultural Moçambicano-Alemão) and German saxophonist **Fox** for a fundraising event with jazzy vibes at Campo di Mare, hosted by **Fabrizio Falcone** in Maputo. **Charlie King** for organizing a south african-mozambican musical event in Johannesburg raising money and for sending sound equipment donations.

MISSION PHOENIX – UPDATE 3

Reconstruction

The building that had been **taken down to the first ring beam** has been rebuilt and reached it's **new maximum height of 5,40m** in the main recording room. A strong **B-B6** supporting structure for the future **concrete roof** has been built. In the side rooms a wooden beam structure will be used to carry **galvanized IBR roof sheeting**.

The whole building received **modifications to improve music studio functionality**: One more rehearsal room and a new mixing/mastering room.

We are about to order **approx. 20 cubic meters of timber** to start working on the interior architecture, doors, windows & frames, second ceilings, side wall & acoustics elements, flooring etc.

MISSION PHOENIX – UPDATE 3

Reconstruction Team

The reconstruction team led by bricklayers **Simão** and **Alberto** are supported by **Sumi Restaurant & Kitchen**, **Tofo** and **Casa Jensen, Inhambane**.

A special THANK YOU to **engineer Gorka**, who provided technical plans for reconstruction in kind collaboration with students from **Unisave, Maxixe** and also supervised the building process.

MISSION PHOENIX – UPDATE 3

12/01/23

Reconstruction Team

We are proud to mention that the **Municipal brass band** arrived in their official uniforms and played a set for our bricklayers and donated 10 sacks of cement.

Thanks to **Sr. Macuacua and President Guimino** of the municipality of Inhambane for supporting us in not charging construction licence.

Thank you **Eric Lavis, Frank Jensen, Macaringe, Craig Harbourn** for your organizational skills and technical advice.

"One hand washes the other and both hands wash the face"

Domingo, Leader Municipal Brass Band Inhambane

MISSION PHOENIX – UPDATE 3

Equipment

A great quantity of music equipment was already donated from various parts of Europe, collected in Woerdern, Province of Lower Austria, awaiting transport to Hamburg and shipment to Maputo, Mozambique. The transport will be sponsored by **Karl Hans Polzhofer**, Honorary Consul of the Republic of Mocambique in Austria. In the fire incident damaged speakers were fitted with new loudspeakers and many devices could be maintained and saved, due to the fantastic work of our technician **Aniceto Nhantumbo**.

MISSION PHOENIX – UPDATE 3

12/01/23

Equipment

Additional equipment purchased for studio recording will be added to the donated patch and will be ready for **transport in beginning of May 2023**. For current live performances in Mozambique during the period of studio rebuilding we use basic equipment which has been purchased in South Africa: microphones, cables, micro stands, as well as a powerful wireless sound mixer which was used during Bom Dia Rising Festival.
